**Date:** November 9, 2026

**Subject:** Request for a comprehensive investigation, and legal action into the targeted, malicious, and defamatory press conference conducted with a conspiracy on 7th November 2026 by a women faculty member of PJTSAU containing fabricated allegations - Reg.

* * *

**Respected Sir,**

Ever since I took charge as Vice-Chancellor, I have poured my heart and soul into reforming and strengthening our university. My only goal has been to bring in transparency, accountability, and welfare, and to empower the PJTSAU for the challenges of 2047 and help the farming community and agriculture sector as whole. A summary of our reforms and achievements over the past two years is enclosed for your kind reference.

I know that driving deep reforms is never easy; administrative decisions and policy measures are bound to cause friction or inconvenience to some, and transfers in our university, in particular, are always difficult to manage while trying to please everyone.

## Context of Administrative Transfer

As part of our recent administrative adjustments, a woman faculty member was transferred to the College of Food Science and Technology, Rudrur (Nizamabad district), on 11th September 2026. This was done strictly as a routine group transfer under our university policy, replacing another faculty member who had been stationed there for 12 years.

## Malicious Retaliation and Defamatory Press Conference

Because this transfer did not suit her, she chose to retaliate with malice. Out of sheer vindictiveness and very likely instigated and conspired by other disgruntled elements within the system who are unhappy with our reform path, she has been indulging in spreading false allegations and complaints against me in the last one week and further she held a press conference on 7th November 2026, between 12 noon and 1 p.m. at the Somajiguda Press Club.

This is a big conspiracy to defame me personally and destabilise the progressive systems that I implemented in the last two years of my tenure.

In this press conference, she hurled completely baseless, fabricated, and defamatory allegations against me, claiming harassment during the first half of this year (January to June 2026). The 11-month silence before filing any complaint clearly proves that her allegations are a manufactured, malicious afterthought deliberately created solely in retaliation against a routine administrative transfer that too in collusion with other disgruntled elements.

These reckless and baseless false utterances are driven entirely by a malicious intent to damage my personal and professional reputation and drag down the image of our esteemed university.

## Personal Integrity and Professional Record

Throughout my life and career spanning over 35 years, as a teacher, researcher and administrator I have always discharged my duties with the utmost commitment, responsibility, accountability, and sensitivity especially when interacting with faculty members, both men and women. I have always held women colleagues in the highest regard and have fiercely protected their dignity. To face such malicious, untruthful allegations for the first time in my life, at the age of 64 years and above, is deeply painful and disheartening to me and my family members.

## Prayer and Request for Investigation

Given the gravity of this deliberate attempt to malign my personal integrity, destroy my decades of hard-earned reputation, and damage the dignity of the Vice-Chancellor's office, I make this appeal to you as a sincere, law-abiding citizen. I humbly request your good office to order an immediate and thorough investigation into these allegations.

Specifically, I request the inquiry to scrutinize all available records, including the WhatsApp chats and call histories between the concerned faculty member and myself over the past few years or months, which will completely expose the falsity of her complaint and her allegations alongside any other relevant material so that the truth comes to light.

Thanking you,

Yours sincerely
