Open Letter to Chief Minister of Telangana from 400 Concerned Citizens and People's Organizations Demanding the Cancellation / Postponement of the 'Invest Telangana Global Summit 2026' during the El Niño induced Drought and Water Crisis Phase

17th Nov, 2026

To,
Sri A. Revanth Reddy,
Chief Minister of Telangana,
Hyderabad

Sir,

We, the undersigned 400 concerned citizens, environmentalists, scientists, academics, members of the civil society, and people's organizations from Telangana and across India, write to you with a sense of deep urgency and distress, in the context of the severe drought declared by the Government in 365 mandals across 31 districts, due to the El Niño climate conditions. While the actual drought situation is learnt to be and become even more severe in the coming months, we are shocked and dismayed that the state government has decided to host the 'Invest Telangana Global Summit (Dec 2026) during this situation of extraordinary crisis. We are writing with an earnest appeal to you to immediately call off this Summit and announce its postponement until the state returns to normal conditions.

On the 15th of October 2026, in a press conference[1] held along with other ministers, you compared the prevailing El Niño conditions in the state to the Covid-19 calamity. You appealed to farmers of Telangana to not cultivate paddy and other water-intensive crops. You urged all the government departments and officials to act in time to prevent the situation from worsening. You also warned that Telangana could face prolonged drinking water crisis until July 2027[2], affecting agricultural operations and increased electricity consumption. You cautioned that electricity availability was becoming a serious concern. You said that the people should adapt to the situation as they did during the Covid-19 Pandemic. Highlighting that until the next 8-10 months, till the next monsoon are crucial, you sought co-operation of all sections of society in overcoming the calamity.

Consequently, the state government declared holidays for schools and colleges due to the shortage of water. Many Government hostels have sent the children home as they do not have water to provide for the children. Even the IT sector is planning to switch to "work from home" mode due to the shortage of water. Many areas within Hyderabad are already reeling under the water crisis, with some areas getting only few litres of water in 3-4 days. The Government

[2] https://www.thehindu.com/news/national/telangana/el-nino-induced-water-and-power-crisis-likely-to-persist-until-july-revanth/article71617402.ece

Order of 24th October, 2026 (GO MS No. 3), declaring drought in 365 mandals across 31 districts is an unambiguous indication that Telangana is in an emergency situation.

However, contradictory to your own concerns about the drought situation in the state, your government is organizing a Global Investment Summit from 7th to 9th December, 2026 at the Bharat Future City, in the vicinity of Hyderabad. Ironically, this Summit also includes a 'Climate Conclave on El Niño, Climate Change and Drought' on 8th December. It is understood from some media reports that the Summit is likely to host 4000 dignitaries from across the world with 'world-class facilities'. This would of course mean five-star services that require heavy use of water and energy. Such an event inevitably increases demand for hotel rooms, banquets, kitchens, laundry, sanitation, as well as electricity, transport, public funds and administrative attention. While the actual water footprint should be assessed transparently; the scale and concentration of this additional demand are plainly at odds with the need to conserve scarce resources during a severe drought.

While this Summit may have been planned much earlier, going ahead to organize it during this calamity, will be seen as utterly insensitive towards the plight of the ordinary people of Telangana; in particular the small and marginal farmers, workers, dalits, adivasis, women and urban low-income communities. Organizing a Luxury Event of this scale for the rich and elite, while the common people of the state face thirst and hunger, is plain inhuman and infact an affront to the people of Telangana.

It is also learnt from an official press release that one government officer will be assigned to attend to each of the 4000 delegates! In a situation where the entire government machinery must be working to help people cope with the water crisis, deploying a large number of government officials and the state machinery for the purpose of "global guest services", is nothing short of an administrative disaster that will adversely affect the attention needed for drought-mitigation.

We demand that officials and employees of all district and mandal administrative units, municipal and panchayat bodies and line departments must be fully engaged in drought-response and not be diverted to guest facilitation. This is absolutely necessary to strengthen urgent relief measures, water-supply coordination and grievance redressal.

We urge you to take immediate cognizance of the dire ground situation and <u>at the least postpone the Global Summit 2026</u> for a time when the situation returns to normalcy and the GO on drought is no longer in force. Your government just organized a massive Bharat Summit in Hyderabad from 12th to 14 Nov, which is also a drain on precious resources at critical juncture. We can ill-afford another such huge summit, given the water crisis.

We call upon you to urgently deploy all necessary financial, administrative and other human resources towards mitigating the effects of drought condition in the state and supporting people's right to life and livelihoods.

Civil society organizations, unions and activists of Telangana recently organized a day-long consultation in Hyderabad on the El Niño crisis and we shall soon send you an independent submission on additional measures to be taken in adivasi, rural and urban contexts to address both the immediate and long-term concerns.

Looking forward to humane action, decision and true statesmanship that the situation demands.

Thanking you,

On behalf of all 400 signatories

From Telangana: Prof. Shantha Sinha, Prof. D Narasimha Reddy, Akunuri Murali, Dr. K. Babu Rao, Lalita Ramdas, Dr. Rukmini Rao, Dr. Sagari Ramdas, Bandari Laxmaiah, K.
